HOBBIES

Sports, Video Games,
Books, Science Movies,
Music, Languages, Dance.

FRONT END DEVELOPER

RESUME

I am a self-taught Front-end developer with a strong focus on creating, modifying, automating, and maintaining captivating, inspiring, and user-friendly web pages. I thrive in a state of unwavering focus when working independently, yet I find immense satisfaction in collaborating with cross-functional teams to tackle ambitious projects. I genuinely value the opportunity to exchange feedback, be it with peers, managers, or esteemed clients.

Equipped with a relentless drive to create, I am equally passionate about continuous learning, approaching each day with unwavering humility, reminiscent of the very first line of code I executed.

EXPERIENCE - PROJECTS

Portfolio

Here, I present my recent projects, crafted with JavaScript, HTML, and CSS.

Calculators

Using HTML, CSS, Sass, and JS, I created a website with multiple calculators

Batatabit

I have developed a landing page for a cryptocurrency platform using HTML and CSS.

Eco-store

In this project, I used Sass for the first time to create a Landing Page.

Mokepon

I have created a video game where you can choose your Mokepon and battle against other Mokepons, using JavaScript, HTML, and CSS.

Yard Sale

I have designed a dynamic webpage with various components to bring the concept of a store to life, utilizing JavaScript, HTML, and CSS.

Google y Wikipedia clone

I have successfully replicated the designs of the aforementioned pages using HTML and CSS.

... You can find all of these projects in my [portfolio](#).

EDUCATION

My main source of knowledge has been the Platzi platform, along with documentations, tutorials, and books.

Ruta: Fundamentos de Programación y Desarrollo Web

Institution: Platzi

2023

Curso Definitivo de HTML y CSS

Institution: Platzi
