- Productivity
- Empathy
- Organization

LANGUAGES

- English: B2/C1
- Spanish: native

HOBBIES

Sports, Video Games, Books, Science Movies, Music, Languages, Dance.

FRONT END DEVELOPER

RESUME

I am a self-taught Front-end developer with a strong focus on creating, modifying, automating, and maintaining captivating, inspiring, and user-friendly web pages. I thrive in a state of unwavering focus when working independently, yet I find immense satisfaction in collaborating with cross-functional teams to tackle ambitious projects. I genuinely value the opportunity to exchange feedback, be it with peers, managers, or esteemed clients.

Equipped with a relentless drive to create, I am equally passionate about continuous learning, approaching each day with unwavering humility, reminiscent of the very first line of code I executed.

EXPERIENCE

Inmersys

Web Developer | October 2023 - present
- Build web applications using modern technologies like React, Three js, Tailwind.
- Improve the user experience in each project with great interfaces and animations

PROJECTS

- **Portfolio:** Here, I present my recent projects, crafted with JavaScript, HTML, and CSS.
- **Accountant Landing Page:** In this project, I used HTML, JS and Sass for an accountant who need a Landing Page.
- **Mokepon:** I have created a video game where you can choose your Mokepon and battle against other Mokepon, using JavaScript, HTML, and CSS.
- **To-do app:** I made a to-do app using React, Tailwind, and Greensock. It's so customizable, you can add profile information.

.

... You can find all of these projects in my portfolio.

EDUCATION

My main source of knowledge has been internet, along with documentations, tutorials, books and courses.

Ruta: Fundamentos de Programación y Desarrollo Web
Institution: Platzi
2023
Ruta: HTML y CSS a Profundidad
Institution: Platzi
2023
Among other courses available on my profile.
